

VANSHIKA RANA

CYBERSECURITY & MERN STACK DEVELOPER

📍 Kaithal, Haryana, India ✉️ vanshikarajput1121@gmail.com
🌐 Portfolio: vanshika-phi.vercel.app 📄 GitHub: github.com/vanshikarajput1121 🔗 LinkedIn: linkedin.com/in/vanshika-rana1121

PROFESSIONAL PROFILE

Bachelor of Computer Applications student specializing in Cloud Security. Adept in MERN stack web development (React, Node.js, Express, MongoDB) and network security analysis. Driven by a passion for combining cybersecurity principles with modern software architecture to build secure, high-performance, and resilient web applications.

EXPERIENCE & TRAINING

Cyber Security & Web Development Trainee 1.5 Years (Pursuing)

Hartron Advance Skill Centre • Kaithal, India

- Acquired hands-on expertise in network monitoring, ethical hacking methodologies, and cloud infrastructure security.
- Configured firewalls, IDS/IPS tools, and conducted web application security testing using Burp Suite and Wireshark.
- Developed full-stack MERN applications following secure coding guidelines and REST API best practices.

KEY PROJECTS

Real-Time E-Commerce Platform

Technologies: MERN Stack, Redux Toolkit, Socket.IO, REST APIs

- Engineered an advanced e-commerce application with real-time updates for cart management and live product availability.
- Implemented centralized state management with Redux Toolkit and integrated an Admin Dashboard for operational monitoring.

Real-Time Chat Application

Technologies: MongoDB, Express.js, React, Node.js, Socket.IO

- Built an instant messaging application supporting real-time bidirection communication, live typing indicators, and online user status tracking.

E-Commerce Application

Technologies: MERN Stack, JWT Auth, MongoDB

- Developed a full-stack platform featuring user authentication, product management, shopping cart workflows, and secure database interactions.

Personal Developer Portfolio

Technologies: React.js, Tailwind CSS, HTML5/CSS3

- Designed and deployed a responsive personal web application showcasing technical competencies, certifications, and project demos.

Blockchain & Web3 Fundamentals

Technologies: Web3.js, Smart Contracts

- Explored decentralized architectures by integrating Web3 wallet connectors and interacting with basic smart contracts.

TECHNICAL SKILLS

Cybersecurity:

Cloud Security, Network Security, Ethical Hacking, Firewall Config, IDS/IPS, Network Monitoring, Database Security

Security & Dev Tools:

Wireshark, Metasploit, Burp Suite, Postman, Docker & Containers, Git, GitHub

Frontend Development:

React.js, TailwindCSS, JavaScript, TypeScript, HTML5/CSS3

Backend & Cloud:

Node.js, Express.js, MongoDB, REST APIs, Socket.IO, AWS Security

Programming:

Python, JavaScript, TypeScript, Prompt Engineering

EDUCATION

Bachelor of Computer Applications (BCA)

Amity University Online

2026 – 2029 | Cloud Security

Diploma in Cyber Security & Web Dev

Hartron Advance Skill Centre

Currently Pursuing

Higher Secondary Education

MDN Global School, Kaithal

Passing Year: 2026

CORE COMPETENCIES

- Cloud Security Architecture
- Secure Web Development
- Ethical Hacking & Audit
- Full-Stack MERN Architecture
- Real-time Systems (Socket.IO)
- DevOps & Containerization
